

EuroSys 2010: Call for tutorial proposals

April 13th - 16th 2010, CNAM, Paris, France

General Information

Researchers and practitioners are invited to submit proposals for tutorials to be held in conjunction with the **EuroSys 2010** conference. The purpose of tutorials is to educate conference attendees about specific topics or to provide background necessary to understand technical advances. The tutorial should attract a wide audience, provide an introduction to the chosen research area and should also cover the most important works in depth. Proposals should not be exclusively focused on the presenter's own work or a commercial product.

Proposals should include:

- Title of the tutorial, contact information for the presenter(s) (name, email address, affiliation), duration (half day or full day), keywords, and scope or objective of the proposed tutorial.
- Characterization of the potential target audience for the tutorial, including prerequisite knowledge.
- A brief description of the tutorial, suitable for display on the conference web site.
- A detailed outline of the tutorial addressing the following issues: references to past tutorials or teaching materials, why the topic is of interest for EuroSys 2010 attendees, the expected benefit to participants, depth and scope of the exposed topics, exercises, software demonstrations, etc.
- A brief CV of the presenter, highlighting her/his background in the tutorial area and evidences of teaching experience.

The evaluation of the proposal will take into account its general interest for EuroSys 2010 attendees, the quality of the proposal, the expertise of the presenters, and general program considerations.

Please send electronic submissions to [workshop_tutorial_eurosys2010@sigops-](mailto:workshop_tutorial_eurosys2010@sigops-france.fr)

france.fr. You can expect a confirmation on receipt of the proposal. If you do not receive a confirmation, please resend the proposal.

Responsibilities

The EuroSys organization provides:

- Management of registration for participants
- Setup of meeting space, and related equipment.
- Coffee breaks and dinner arrangements.
- Reproduction of the tutorial material.

Tutorial speakers are responsible for:

- Providing tutorial material to the tutorial co-chairs 1 month prior to the tutorial.
- Presenting the tutorial at EuroSys 2010.

The EuroSys 2010 tutorial chairs reserve the right to cancel any tutorial if too few attendees are registered for the tutorial.

Tutorial speakers will be honored by a **free conference registration**.

Important dates

Tutorial proposals due:

October 19th, 2009

Acceptance notification:

November 7th, 2009

Date of tutorials:

April 13th, 2010

Contacts

Workshop co-chairs:

Toni Cortes, Barcelona Supercomputing Center

Emre Kiciman, Microsoft Research
